A cataclysm brings about the end of a great civilization, and the survivors find themselves transported to a different planet, where they establish the new Kingdom of Vuhran. Over the centuries, pivotal conflicts emerge that can only be resolved with the participation of the Athyrant, or soldiers of god, and the power of enigmatic crystals that persist in their possession.

Discover the fate that awaits the young and courageous Aheolian-Priem upon his arrival at the main military camp on the eastern continent. Vast armies will mobilize, the most formidable fortress will be challenged, and the world will quake with the power of the gods.

"The Crystals of Vuhran" is a true epic, complete with geography and a millennial history, featuring its own mythology, culture, and technology. The first volume of this trilogy covers the initial thousand years of history, with the narrative continuing in "The Milian Sector" and "Children of Orion."

When the god Alkiar created our galaxy, he stirred the jealousy of his brother, Morek. The latter then decided that he would destroy Earth's living beings through his demons: the untot. Recognizing this threat, Alkiar gave life to the Padian Antolas, an immortal warrior of light whose mission is to contain the lieutenants of darkness.

However, Antolas won't be able to stop them forever. New immortal warriors must be born from the souls of three human beings, three predestined ones. To transform into Padian, they must first enter the higher dimension through a portal that will open in the Heart of the Andes.

Accompany the guardians across the planet charged with protecting the fated ones from the hatred of Scuranti. In Siberia, the mystery of Tunguska, the magic of Ayers Rock in Australia, and even the son of a vanished volcano in southeast Indonesia will be critical pieces in this colossal battle through time and space.
